

## July Newsletter

### Price Increase from Tuesday 1st September

### Price Increase as of Tuesday 1st September

We hope that you are all staying safe and that business is starting to pick up after the very turbulent last few months.

Unfortunately, we are having to increase prices from **Tuesday 1st September**, you know that this is something that we at GJ Electronics do not like to do unnecessarily.

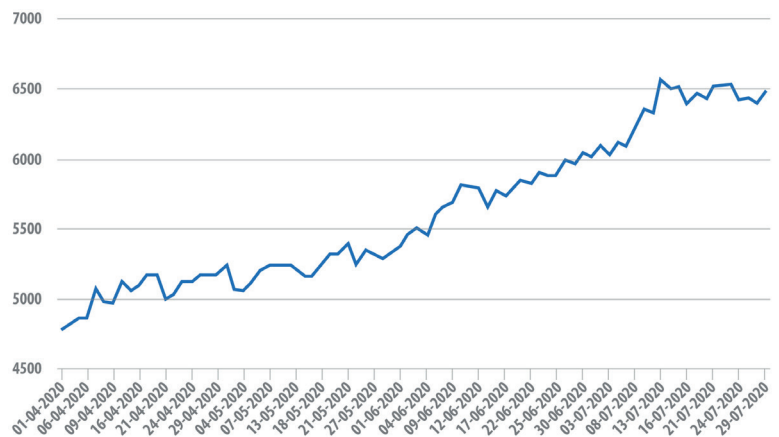

This is due to a number of factors ie, US dollar exchange rates, freight costs and most important of all the price of copper. We are including a graph of copper prices below for your information.

**Therefore the following increases will apply:**

**16/2 & 16/4 Speaker Cable: 15%**

**CAT5e & CAT6 Cable: 15%**

**Remaining Products: 4%**
