

GJ Newsletter - May 2021

Price Increase as of Monday 14th June 2021

Unfortunately once again we have to advise you of inevitable price increases due to the continual upward spiralling costs of raw materials e.g. copper and zinc. Freight rates continue to have peak season surcharges added, now blamed on the Suez Canal problem some weeks ago.

We will therefore, regrettably, have to increase prices by **10% with effect 14th June 2021**.

We can't guarantee that this will be the last increase, we will continue to monitor the situation, and it may be necessary that we will have to increase individual products on a case by case basis. We will of course keep you informed.

Thank you for your support.
