

NOVEMBER 2022 NEWSLETTER

NEW PREMIUM 8K ULTRA HD CABLES IN STOCK NOW!

Samson Premium 8K Ultra High Speed HDMI Cable

Product Codes: HP8/05, HP8/1, HP8/2, HP8/3, HP8/5

All HDMI cables are not created equal. This 8K Ultra High Speed HDMI cable has been tested to the latest standards and complies with the Ultra High Speed with Ethernet specification. To experience all of the features contained in devices featuring the HDMI 2.1 chipset, you must upgrade your interconnect cables to Ultra High Speed or Ultra High Speed with Ethernet.

Samson's 8K Ultra High Speed HDMI ensures high-bandwidth dependent features are delivered including uncompressed 8K video with HDR. It features exceptionally low EMI (electro-magnetic interference) which reduces interference with nearby wireless devices. The cable is backwards compatible and can be used with the existing HDMI devices.
